## TRADE CAREERS IN THE CONSTRUCTION INDUSTRY

There are many trades involved in the construction industry from carpentry and masonry to painting and electrical. At Landmark, you have the opportunity to learn more about these trades while working on a variety of projects in the field.

## CAREER PATH

When you begin a career in the construction industry, you will start as a field laborer. You can expect to be outdoors on various jobsites, complete hands-on tasks, use construction equipment, and gain knowledge from experienced professionals that would otherwise be unobtainable in a classroom setting. A career in construction when you start as a field laborer can develop into a position like Superintendent, where your responsibility is to oversee and manage the entire jobsite operations of a project.

“ Construction has evolved. Our industry offers opportunities that are limitless, and you can start debt-free. ”

Jason McMasters  
General Superintendent  
Landmark Builders
